ADDENDUM-CLOTH

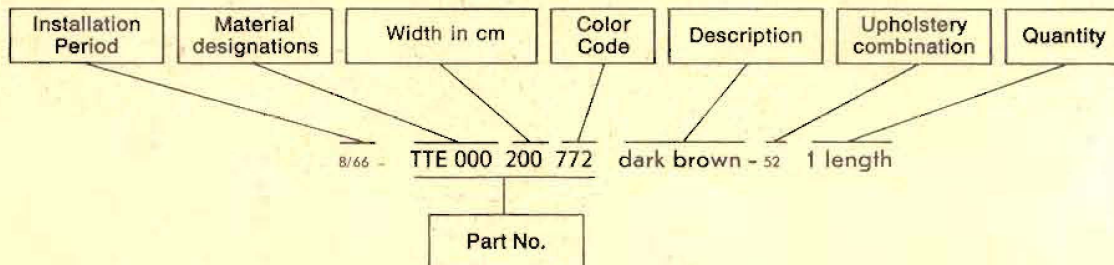

The following materials are supplied in lengths. 1 length corresponds to 25 cm × width of length. The last two digits of the part number Denote the width in dm (1 dm = 10 cm = APPROX. 4 in.). A Letter "B" at the end of the part number signifies a lighter quality.

Example:

A new part number for Cloth Material has been changed for lengths introduced from 1<sup>st</sup> August 1966 on, as well as for those Materials remaining in current production. The 7<sup>th</sup> to 9<sup>th</sup> digits in the Part No. Denote the bale width in cm (1 cm = 0.39 in.).

Example:

**MAIN GROUP 8**
