

The Caravelle

The quintessence of space and elegance.

The Caravelle. A vehicle you can feel at ease in. A vehicle which meets your expectations - uncompromising in shape and function.

The Caravelle: a large saloon in keeping with the trends of the nineties. Great attention was paid to detail in designing the elegant equipment. Everything which makes the vehicle more spacious and pleasant to drive and "live in" has been thought of.

The harmonious lines of the body, the large windows and the distinctive visual impression characterise the appearance.

The elegant lines of the body have been emphasised by a spoiler under the front bumper. Both bumpers are colour coded.

The aerodynamic body design does not only make an attractive and elegant impression, it is also very practical. With a drag coefficient of 0.36 the Caravelle has an absolutely top figure in its class.

The Caravelle - It's as inviting as it looks.

Driving enjoyment starts as soon as you get into this vehicle. Access to the vehicle via the entrance behind the front axle and the low step is extremely comfortable.

One look at the fascia confirms that here again great attention has been paid to detail.

Roomy, manoeuvrable, luxurious and comfortable - the Caravelle.

Intelligent use of space was one of the most important objectives of development. We find that this has been achieved in a convincing way with the Caravelle concept.

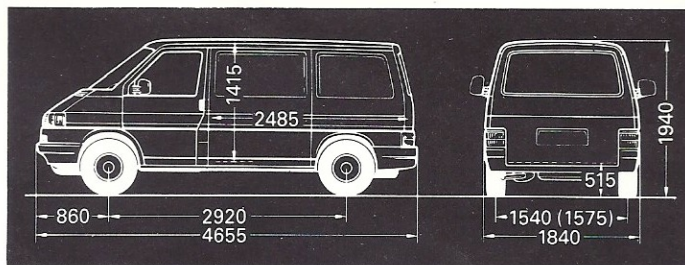

Not only has the engine compartment been kept very small due to the space-saving transverse installation of the engine - something from which interior space profits. The front and rear axle have also been arranged so that nothing is in the way in the interior. And loading is easy with the low loading surface and large tailgate.

And if it rains - no problem. You and your weekend shopping, your bags and suitcases all keep dry as with the tailgate open you always have a roof over your head.

Talking about comfort, where others are thwarted by a narrow parking space, you can open the sliding door even if space is limited. Getting in and out of the car couldn't be easier, could it?

Why not try it for yourself? You are welcome to view the Caravelle, without obligation. We look forward to your visit.

Technical Data For Australian Specification Vehicle

Engine

Type	Digifant 5 Cylinder
Location	Front Transverse
Capacity	2461cc
Maximum Power	81 kw at 4500 rpm
Maximum Torque	190 Nm at 2200 rpm

Transmission

Driven Wheels	Front
5 speed Manual Transmission	Standard
Clutch	Hydraulic Operation
4 speed Automatic Transmission	Optional

Suspension

Front Axle	Independent suspension on double wishbones with longitudinal torsion bars and telescopic shock absorbers
Rear Axle	Independent suspension with diagonal trailing arms, miniblock coil springs and telescopic shock absorbers

Steering

Mechanical	Rack and Pinion Power Assisted
Turning Circle	11.7

Brakes

Hydraulic Dual Circuit System	Front: Ventilated Disc Rear: Drum
Pressure and load dependent brake pressure reducer	

Electrical

Battery	12V8 3AH - 280A
Alternator	90A

Wheels & Tyres

Wheels	6Jx15 Steel
Tyres	195/70 R15 97S Reinforced

Weight

Unladen	1640kg
Payload limit	900kg

Exterior Dimensions

Wheel Base	2920mm
Overall length	4655mm
Overall width	1840mm
Overall height	1940mm
Track front/rear	1575/1540mm

Interior Dimensions

Length	2485mm
Width	1620mm
Height	1415mm
Load area	4.0 m ²
Load volume	5.4 m ³
Fuel tank capacity	80 litres

Warranty

2 years	60,000 kms
3 years	Paintwork (body)
6 years	Body rust through

Standard Features

- Anti Intrusion Bars Front Doors
- Laminated Windscreen
- Tinted Glass Side & Rear
- Power Steering
- Power Front Windows
- Central Locking
- Cruise Control
- Electric Exterior R/View Mirrors
- Tachometer
- Radio/Cassette Six Speaker Stereo
- Child Proof Locks
- Cloth Upholstery
- Rear Seat Head Restraints
- Analogue Clock
- Rear Window Wash/Wipe
- Illuminated Step
- High Mounted Stop Light
- Lockable Fuel Cap
- Two Speed Windscreen Wipers with Flick & Intermittent Setting
- Vanity Mirror
- Tailgate Grab Handle
- Front Spoiler
- Mud Flaps
- Walk - Through Facility
