

# The New Jetta

Das Auto.

# Made to meet life's challenges.

Sleek and sporty, practical and spacious, the New Jetta is more stylish, more aerodynamic and more efficient than ever before. Newly designed front and rear styling reinforces its contemporary appeal, while enhanced features and trim levels provide new levels of elegance and luxury. Designed to take the challenges of the road in its stride, the New Jetta combines responsive steering with refined handling to deliver maximum driving enjoyment, ensuring every journey is a relaxing, stress-free experience. Never has driving been so easy or effortless.

Model shown is Jetta Highline with standard 17" Porto alloy wheels, optional metallic paint, optional Bi-xenon headlamps and optional Park Distance Control (front and rear).

# Irresistible from every angle.

*Model shown is Jetta Highline with standard 17" Porto alloy wheels, optional metallic paint, optional Bi-xenon headlamps and optional Park Distance Control (front and rear).*

The beauty of classic design is its timeless appeal, as exemplified by the New Jetta. Elegant and exciting, the enhanced front design features a revised front bumper with three chrome trimmed louvres, contoured headlights and a re-profiled bumper. On Comfortline and Highline models, standard integrated fog lights flow seamlessly into the bumper creating a dynamic presence. Sleeker than ever before, the updated styling delivers a 10% improvement in aerodynamics over the previous model.

As you'd expect, what starts at the front concludes at the rear, with a redesigned boot lid featuring an aerodynamically efficient lip extending into the side wings, a reshaped bumper and stylish new rear light clusters. The sleek, sculptured bodylines exude style and charisma, giving the New Jetta its characteristic identity.

## An inner world of peace and order.

No question about it, the world is moving faster, life is more pressured and it's hard to stay in control. Unless you're sitting in the New Jetta. Here, everything is exactly where you would expect it to be, ergonomically arranged and intuitively to hand, providing a stress-free haven of tranquillity and order. The multifunction computer displays important driving information, such as current or average fuel consumption and the status of your connected mobile phone.

Interior shown is New Jetta Highline with optional "Keyless Access" locking and starting system, leather trim and RNS 510 navigation system.

## Intelligent systems to help keep you safe.

RCD 510 radio/CD player with 6-disc CD changer and SD card reader.

Radio/Satellite Navigation RNS 510 SatNav with TFT Display, touch screen, 30-GB hard disk, SD card reader and DVD drive.

## Travel in style. Arrive in good time.

The RCD 310 DAB radio system/MP3 compatible CD player provides excellent acoustics via eight speakers with an output of 4 x 20 watts. The radio system displays DAB digital information transmitted by the radio station, track display, song titles and artists. It also features an AUX-in socket for connection to an external multimedia source, such as an iPod or MP3 player. Standard on Trendline.

The rear-view camera helps you reverse park by giving you a clear view to the rear of your vehicle via the display of your radio/navigation system, featuring auxiliary lines to help you park and enabling you to recognise even small obstacles such as kerbs. Optional on all models in conjunction with the RCD 510 or RNS 510.

The parking sensor pack comprises front and rear parking sensors and reverse activated kerb-view adjustment on the passenger's side door mirror. The parking sensors assist in parking manoeuvres by emitting ultrasonic, audible and visual signals, alerting the driver to any obstacles in the way. In addition, an optical parking display extends the functions of the parking sensors by indicating your position, either on the RCD 510 radio system (Optional on Trendline, standard on Comfortline and Highline) or the RNS 510 radio system (Optional on Trendline, Comfortline and Highline), on the vehicle's audio display during parking.

The Multi Device Interface (MDI) with USB port enables you to connect and charge a compatible device, while track selection is viewed and selected via the vehicle's radio system. USB port Standard on all models. USB port with iPod cable optional. Beige interior not available, black interior only.

**Sit back, relax  
and enjoy the drive.**

Who doesn't occasionally long to sit back, relax and catch breath? Thanks to the New Jetta's comfortable interior and exciting new trim levels, you can do this while on the road. Take for example the Highline model, everything has been designed for your total comfort and relaxation, from the Sports comfort seats to the revised dashboard instrumentation and new steering wheel design. Stylish, refined and practical, it all makes for a pleasant journey, ensuring you arrive at your destination refreshed, replenished and re-energised.

# Think award-winning TSI engines.

The award-winning TSI engine range benefits from combining innovative direct injection technology and turbocharging. This combination works to produce power far more effectively than normally aspirated engines. It's a level of performance that will surprise you every time you take to the wheel. Precision engineered, the new generation TSI engine range offers outstanding driving enjoyment with the benefit of reduced fuel consumption and CO<sub>2</sub> emissions, which results in less impact on the environment. It's no wonder Volkswagen's multi-award-winning TSI engines have won respect all round as they break new ground in the automotive world and set new standards for others to follow. Jetta TSI engines are fitted with a 6-speed manual gearbox or a 7-speed DSG® and whether it's the entry-level 1.2 77kW TSI or the 1.4 90kW TSI, all the way up to the supercharged, flagship 1.4 118kW TSI, you'll enjoy a spirited and refined performance that's also environmentally friendly.

**\*Fuel Consumption and Carbon Dioxide Emission Figures.** The figures reflected were obtained in accordance with prescribed uniform measuring standards (SANS 20101: 2006 / ECE R101: 2005 in their currently applicable versions) under laboratory type conditions. The measuring standards are stipulated by law. They do not apply to a specific vehicle and are provided to enable comparison between different vehicle models tested using the same uniform measuring standard. The values are accordingly not necessarily representative of real-life driving conditions. Factors such as driving style, vehicle load, road conditions, tyre size, traffic and ambient conditions may result in different fuel consumption and carbon dioxide emission levels to those achieved under the test parameters referred to above. More details are contained in the owner's manual.

**State-of-the art is an understatement.**

## Safety that inspires driving confidence.

The road ahead may have its ups and downs, but to ensure that the ups don't get the best of you, the Hill-Hold control function activates on inclines, keeping your vehicle stationary until pressure is applied to the accelerator pedal. The Hill-Hold function then disengages and allows acceleration. No more rolling back on inclines. Effortless control. Electronic Differential Lock (EDL) makes it easy for you to drive off with the wheels on two differing road surfaces. Built with a level of safety that ensures peace of mind on every journey, the Jetta makes certain that once you are on the road, you remain there. Electronic Stability Programme (ESP), standard across the range, recognises the first signs of a critical situation and intervenes in milliseconds by utilising engine management control systems to stabilise the Jetta. This, in conjunction with ABS (Anti-lock Braking System) and EDL (Electronic Differential Lock), make for one of the safest and most secure driving experiences. It's no wonder the New Jetta has been awarded a 5 star Euro NCAP safety rating. Euro NCAP organises crash-tests and provides motoring consumers with a realistic and independent assessment of the safety performance of some of the most popular cars sold in Europe. So relax and enjoy the drive, knowing that Volkswagen puts you and your family's safety first. Always.

# Technology that breaks boundaries. And then goes beyond.

The Jetta is the ultimate realisation of the Das Auto brand philosophy. Das Auto means The Car, and is Volkswagen's brand ambition to produce the best car in every vehicle class. TSI technology combines impressive performance with lower fuel consumption and emissions. The \*Dual-zone climatronic air conditioning creates superior levels of in-cabin comfort that allows each passenger to define their own temperature level. Innovative features like separate daytime running lights, Cruise Control, \*Bluetooth cellphone preparation and \*Park Distance Control maximise driving pleasure. Nothing has been left unconsidered. From the Rain Sensor to the manual "Coming home/Leaving home" Lights On Function, the Jetta is at the forefront of innovation and technological excellence.

\*Features optional on certain models.

# Think Blue for a greener future.

With the Jetta, you can liberate your inner driver and mother nature. The Jetta uses cutting edge technology to deliver on Volkswagen's determination to protect the environment. Pioneering technologies like Turbo Stratified Injection (TSI), Direct Shift Gearbox (DSG®) and Turbocharged Direct Injection (TDI) are the pillars of Think Blue – Volkswagen's brand vision of creating efficient and sustainable vehicles for all. The engineering dynamics employed in common rail diesel injection technology produces cleaner, more refined and efficient combustion, for improved performance and fuel consumption. TSI petrol engines blend the best of Volkswagen's TDI diesel and FSI (Fuel Stratified Injection) petrol technology to be more compact, high-powered and fuel efficient. There's no need to choose between performance and economy – the cleaner TSI engines have a smaller impact on the environment, are kinder to your pocket, and, best of all, offer outstanding performance. Thanks to the Jetta and Think Blue, the future is looking greener than ever.

**Think Blue.**
