Think Blue. It's how we put more thought into what and how you drive.

Fuel Consumption*	Engine	City L/100 km	Highway L/100 km
Automatic	2.0 TSI	TBC	TBC
Manual	2.0 TSI	TBC	TBC

TSI – TSI brings together the power of FSI direct fuel injection with the boost of a turbocharger. The end result? An ultra-efficient engine that provides abundant low-end torque, giving you outstanding performance through a wide range of speeds, power when you really need it, ultra-low fuel consumption and, ultimately, lower CO₂ emissions.

DSG – A definite shift for the better, DSG gives you the convenience of an automatic with the performance and efficiency of a manual. Here's how it works: DSG is managed by dual electronically controlled clutches, so not only do you shift faster, you also get enhanced acceleration and reduced fuel consumption. In fact, thanks to DSG, each shift takes less than 4/100ths of a second. And if you're the manual type, a quick flip of the Tiptronic® function lets you shift into something a little sportier.

Lightly does it. The lighter you travel, the less fuel you consume. An extra 100 kg of stuff increases your fuel consumption by up to 0.3 L/100 km. So if you've got random items weighing you down, it's time to lighten the load. Driving more efficiently. Just one way that we can all **Think Blue.**
