

# Judson Order Form - 1964

HERE IS WHAT THE WORLD'S LEADING AUTO  
MAGAZINES SAY ABOUT THE JUDSON  
SUPERCHARGER IN THEIR ROAD TESTS

**ROAD & TRACK** — "The car is completely transformed with absolutely no objectionable features."

**DAS AUTO (GERMANY)** — "The Judson Supercharger has greatly impressed us . . . it truly allows a new experience in motoring."

**SPORTS CARS ILLUSTRATED** — "This type is quite efficient at all engine speeds and also has the added advantage of being very compact. It produces a positive boost at all rpm's and is not subject to mechanical failure."

**MOTORSPORT** — "After putting the car through its paces and comparing notes on its present vs. past performance, there can be no doubt about the value of supercharging."

**AUTO VISIE (HOLLAND)** — "The difference in performance between the supercharged and unsupercharged car is greater than one would believe possible."

**FOREIGN CAR GUIDE** — "Judson has a kit that can be installed by a layman with virtually no changes in stock settings and still gives the best performance for the dollar compared with other modifications." . . . "From experience, I have found a gas mileage drop of only two to three miles per gallon and an almost 50% reduction in 0 to 60 acceleration time."

**MOTOR TREND** — "Even starting the engine did not disclose any unusual sounds. A ride, however, reveals some startling differences." . . . "The Judson blower allows you to drive as economically as you wish and still have ample power on tap."
