VW WARRANTY VOUCHER

for the new 1976 Volkswagen automobile.

Chassis No. 116 200 6237

Model 113 861

Colour Silver

Engine No. AJ 06 2247

Speedometer Replacement

Date _____

At Mileage _____

The warranty begins on the day the new VW automobile is delivered to the original retail purchaser,

namely on August 3, 76
(to be filled in by authorized VW dealer)

Terms of New Vehicle Warranty are printed on the following pages.

Should any warranty claim arise, present this voucher to your authorized VW dealer.

VOLKSWAGEN CANADA, LTD.

Bruno Hubert

Warranty for New Volkswagen Vehicles

This warranty is issued by Volkswagen Canada Ltd. ("VWC"), the authorized Canadian importer and Distributor of Volkswagen vehicles.

Free repair or replacement in Canada and the United States of America of defective parts for 12 months or 20,000 miles

1. VWC warrants that every 1976 Volkswagen vehicle imported by VWC and sold as a new vehicle to a retail customer will be free from defects in material and workmanship for 12 months after the date of delivery of the vehicle to the original retail customer or until the vehicle has been driven 20,000 miles, whichever comes first.

This warranty is limited, however, to the following: If the vehicle becomes defective under normal use and service and is brought during this period to the workshop of any authorized Volkswagen dealer in Canada, the continental United States or Hawaii, the dealer will, without charge, repair any defective part or replace it with a new or factory reconditioned part.

Maintenance required to keep warranty in effect

2. In order to keep this warranty in effect, the owner must have the vehicle maintained and serviced as prescribed in the Volkswagen Maintenance Schedule.

Items not covered by warranty

3. VWC is not responsible for damage or malfunctions resulting from:

- (i) accident, misuse, negligence or alteration;
- (ii) improper repair of the vehicle;
- (iii) use of the vehicle in competitive events; or
- (iv) failure to follow recommended maintenance requirements.

Maintenance services, lubricants and fluids, and the replacement of service items, such as filters, are also at the expense of the owner.

**Warranty outside
Canada and the
United States
of America**

4. If the vehicle is brought to an authorized Volkswagen workshop outside Canada, the continental United States or Hawaii, VWC's warranty will not be applicable and defective parts will be repaired or replaced free of charge with new or factory reconditioned parts only within the terms and limitations of the warranty for new Volkswagen vehicles in effect in the country where such authorized Volkswagen workshop is located.

**NO OTHER
WARRANTIES
MADE**

5. THIS WARRANTY IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES OF VWC, THE MANUFACTURER, THE DISTRIBUTOR AND THE SELLING DEALER. NEITHER VWC NOR THE MANUFACTURER ASSUMES, OR AUTHORIZES ANY PERSON TO ASSUME, ON ITS BEHALF, ANY OTHER OBLIGATION OR LIABILITY.

**CONSEQUENTIAL
DAMAGE
EXCLUDED**

6. VWC IS NOT RESPONSIBLE FOR LOSS OF TIME, INCONVENIENCE, LOSS OF USE OF THE VEHICLE OR OTHER CONSEQUENTIAL DAMAGE.

The VW Owner's Security Blanket

**A Strong New Car Warranty
Dealer Workmanship Guarantee
Our Fault Transportation**

**Electronic Analysis
Express Care
Service Rent-A-Bug**

New Vehicle Warranty

If you maintain and service your 1976 model Volkswagen as prescribed in the **VW Maintenance Schedule**, any factory parts found to be defective in material or workmanship within 12 months or 20,000 miles, whichever comes first, will be repaired or replaced free of charge by any authorized Canadian or U.S. Volkswagen dealer. Excepted are filters, fluids and lubricants. Details are listed on the preceding pages.

Even the following are covered:

Brake pads/linings and clutch linings

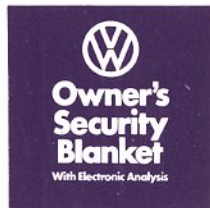

As long as you have brakes and clutch adjusted when necessary, in accordance with the maintenance schedule, we will replace pads and linings free of charge if they should wear out during the new vehicle warranty period.

Rubber blades for windshield wipers, sealed beams and other light bulbs. If the rubber blades for the windshield wipers wear out or the light bulbs become defective during the new vehicle warranty period, we will replace them free of charge.

Battery

In case of a defect in material or workmanship within the new vehicle warranty period, the battery will be replaced free of charge.

Original equipment tires are covered against defects in material and workmanship, as well as road hazards, on a pro-rated basis, as determined by the remaining tread depth.

Dealer Workmanship Guarantee

Authorized VW dealers in Canada and in the U.S. guarantee their workmanship on all repairs for a period of 6 months or 6,000 miles, whichever comes first. Excluded are service and maintenance items, and normal wear and tear.

Our Fault Transportation

As part of the Owner's Security Blanket, authorized Volkswagen dealers will provide qualified owners, by appointment, with substitute transportation for local use, free of charge. This applies whenever a new vehicle warranty repair cannot be completed to make your VW operative and safe to drive, on the day scheduled.

Parts and Accessories

New or factory-rebuilt parts and accessories distributed by VWC and sold by authorized VW dealers in Canada and in the U.S. are guaranteed to be free from defects under normal use for a period of 6 months or 6,000 miles, whichever comes first. Consult your authorized dealer for details.

Electronic Analysis

VW electronic analysis establishes for your car just the proper amount of service it needs to run in top driving condition. A printed Test Report will show precisely what work is necessary in addition to the regular maintenance and oil change services.

Express Care

If your VW can be fixed in 30 minutes or less, your authorized VW dealer will fix it while you wait. No appointments are necessary.

Service Rent-A-Bug

This customer service has been provided to give you a minimum of inconvenience when you bring your VW to your authorized VW dealer. You can rent another car, at nominal cost, while your VW is being serviced.

Volkswagen parts, accessories and exchange units are identified by these trademarks.

All meet the same exacting quality control standards as the original equipment on the car, and comply with all applicable Government safety regulations.

They are guaranteed to be free from defects in material and workmanship for a period of 6 months or 6,000 miles, whichever comes first. Consult your authorized dealer for details.

All Volkswagen parts and accessories are available at your authorized Volkswagen dealer.

Also, ask him about rebuilt parts under the Volkswagen Exchange Service . . . they cost less than new parts but carry the same warranty.

Maintenance Schedule

To assure reliable car performance, VW recommends the following maintenance schedule:

The First Scheduled Maintenance at 1,000 Miles includes Oil Change and Vehicle & Emission Control Maintenance.

This service is performed at no charge to you; you only pay for lubricants, fluids and filters.

For further maintenance,
follow this table:

	7,5	15	22,5	30	37,5	45	52,5	60	67,5	75	82,5	90
Oil Change	●	●	●	●	●	●	●	●	●	●	●	●
Brake & Valve Adjustment*	●		●		●		●		●		●	
Vehicle & Emission Control Maintenance / Electronic Analysis		●		●		●		●		●		●

etc.
(miles in
thousands)

* Valve adjustment at these intervals is recommended for maximum engine life.

For proper engine lubrication, it is important that the oil be changed every 7,500 miles. **Have the engine oil changed after 6 months if you drive less than 7,500 miles during this period.**

If you use your car under severe driving conditions, it may be necessary to change the engine oil more frequently.

A complete lubrication and maintenance service should be carried out at least once a year, preferably before the winter.

Service operations are listed on the next pages.

Scheduled Maintenance at 1,000 Miles

Includes engine oil change, vehicle and emission control maintenance. You won't be charged for this service when it is performed; **you will only pay for lubricants, fluids and filters.**

Vehicle Maintenance

- 1 – Clutch: Check, adjust if necessary.
- 2 – Manual transmission: Change oil, clean magnetic drain plug.
- 3 – Rear axle: Check torque of bolts on constant velocity joints.
- 4 – Brake system: Check for damage and leaks.

During road test

Check efficiency of braking, steering, heating and ventilation systems.

Emission Control Maintenance

- 1 – Engine: Change oil.
- 2 – Oil strainer: Clean (Beetle only)
- 3 – Oil filter: Replace (Type 2 only)
- 4 – V-belt: Check, adjust if necessary.
- 5 – Valves: Adjust clearance.
- 6 – Fuel cap, tank and connections: Check visually.

After road test

- 1 – Exhaust system: Check for damage.
- 2 – Engine idle and idle CO: Check, adjust if necessary.
- 3 – Cylinder head covers: Check for leaks.

Oil Change, Brake and Valve Adjustment – at your expense

This service should be performed at the following mileage intervals:

7,500 miles	52,500 miles
22,500 miles	67,500 miles
37,500 miles	82,500 miles etc.

Have this service performed every 6 months if you drive less than 7,500 miles during this period.

If you use your car under severe driving conditions, it may be necessary to change the engine oil more frequently.

Vehicle Maintenance

- 1 – Brake system: Check for damage and leaks.
Check brake fluid level, add if necessary.
Check thickness of brake pads.
Adjust brakes if necessary.

Emission Control Maintenance

- 1 – Engine: Change oil.
- 2 – Oil strainer: Clean (Beetle only).
- 3 – Valves: Adjust clearance
(recommended for maximum engine life).

Vehicle and Emission Control Maintenance (includes engine oil change) – at your expense

This service should be performed every 15,000 miles.

If you drive less than 15,000 miles within 12 months, have this service performed once a year.

Vehicle Maintenance

- 1 – Clutch: Check, adjust if necessary.
- 2 – Manual Transmission: Check oil level, add if necessary.
- 3 – Automatic Stick Shift: Check ATF level (Beetle only).
- 4 – Automatic Transmission: Check ATF level (Type 2 only).
- 5 – Automatic Transmission, final drive: Check oil level, add if necessary (Type 2 only).
- 6 – Brakes: Check, adjust if necessary.
- 7 – Brake pressure regulator: Check visually (Type 2 only).
- 8 – Door hinges: Lubricate.
- 9 – Sliding door mounting points: Lubricate (Type 2 only).
- 10 – Front axle: Lubricate (except Convertible).

During Road Test

Check efficiency of braking, kickdown, steering, heating and ventilation systems.

Emission Control Maintenance

- 1 – Engine: Change oil, clean oil strainer.
- 2 – Oil filter: Replace (Type 2 only).
- 3 – Valves: Adjust clearance.
- 4 – Spark plugs: Replace.
- 5 – Ignition distributor: Replace ignition points.
Adjust dwell angle and timing.
Visually check ignition wires, distributor cap and rotor, replace if necessary.
- 6 – Compression: Check.
- 7 – V-belt: Check tension and condition.
- 8 – Fuel filter: Replace.
- 9 – EGR system: Check.
- 10 – Crankcase ventilation hoses: Check visually.
- 11 – Exhaust system: Check for damage.
- 12 – Fuel tank and evaporative control system: Visually check fuel cap, charcoal filter and hose connections.

After Road Test

- 1 – Engine idle and idle CO: Check, adjust if necessary.
- 2 – Cylinder head covers: Check for leaks.

Additional Service – at your expense

Every 30,000 miles

Vehicle Maintenance

- 1 – Automatic Transmission: Change ATF (includes removal and installation of transmission fluid pan) – Type 2 only.

Emission Control Maintenance

- 1 – Air cleaner: Replace filter element.
- 2 – Vacuum passages in throttle valve housing:
Clean (where applicable).
- 3 – Vacuum ports for distributor: Clean bores (where applicable).

Every 2 years

Vehicle maintenance

- 1 – Brakes: Replace brake fluid.
- 2 – Brake warning light switch: Check functioning.

Volkswagen Electronic Analysis – at your expense*

A regular checkup of your VW **every 15,000 miles** is extremely important for determining the amount of additional maintenance your vehicle may need for continuing peak performance.

If you drive less than 15,000 miles within 12 months, have an electronic analysis performed once a year.

The VW Electronic Analysis Test Report will be given to you so you will know the exact condition of your VW. On the basis of this test report, your service adviser will help you decide what additional work should be done. All necessary service is **at your expense**.

* The first VW electronic analysis at **15,000 miles** will be done at no charge to you. From then on, **at 15,000-mile intervals, the VW electronic analysis is at your expense.**

VW Electronic Analysis – at your expense*

Engine

- 1 – Compression: Check.
- 2 – Ignition system and timing: Check.
- 3 – Exhaust system: Check for damage.

Rear axle and transmission:

- 4 – Drive shafts: Check boots for leaks.

Front axle and steering:

- 5 – Front axle: Check dust seals on ball joints and dust seals on tie rod ends, check tie rods.
- 6 – Ball joints: Check play (except Convertible).
- 7 – Steering: Check play.
- 8 – Steering gear: Check boots for leaks (except Type 2).
- 9 – Front wheels: Check camber and toe.

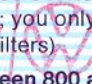

Brakes, Wheels and Tires:

- 10 – Brake system: Check for damage and leaks.
- 11 – Brake linings and pads: Check thickness.
- 12 – Brake fluid: Check level, add if necessary.
- 13 – Tires, incl. spare wheel: Check for wear and damage, check and correct pressure.

Electrical system

- 14 – Starting current: Check with electronic equipment.
- 15 – Charging system: Check with electronic equipment.
- 16 – Check operation of headlights, high beam indicator light, parking lights, side marker lights, license plate light; emergency flasher, stop lights, tail lights, back-up lights, turn signals, horn, rear window defogger and brake warning light.
- 17 – Headlights: Check adjustment.
- 18 – Windshield wipers: Check operation.
- 19 – Windshield washer: Check operation and fluid level.
- 20 – Battery: Check electrolyte level, check voltage under load.
- 21 – Safety belt warning light, buzzer and ignition/steering lock: Check.
- 22 – Heater lever spot light: Check (except Type 2).
- 23 – Interior lights and instrument lights: Check.
- 24 – Warning lights for alternator and oil pressure: Check.
- 25 – Kickdown switch and solenoid: Check (Type 2 only).

* The first VW electronic analysis at **15,000 miles** will be done at **no charge to you**. From then on, **at 15,000-mile intervals, the VW electronic analysis is at your expense.**

Additional Services

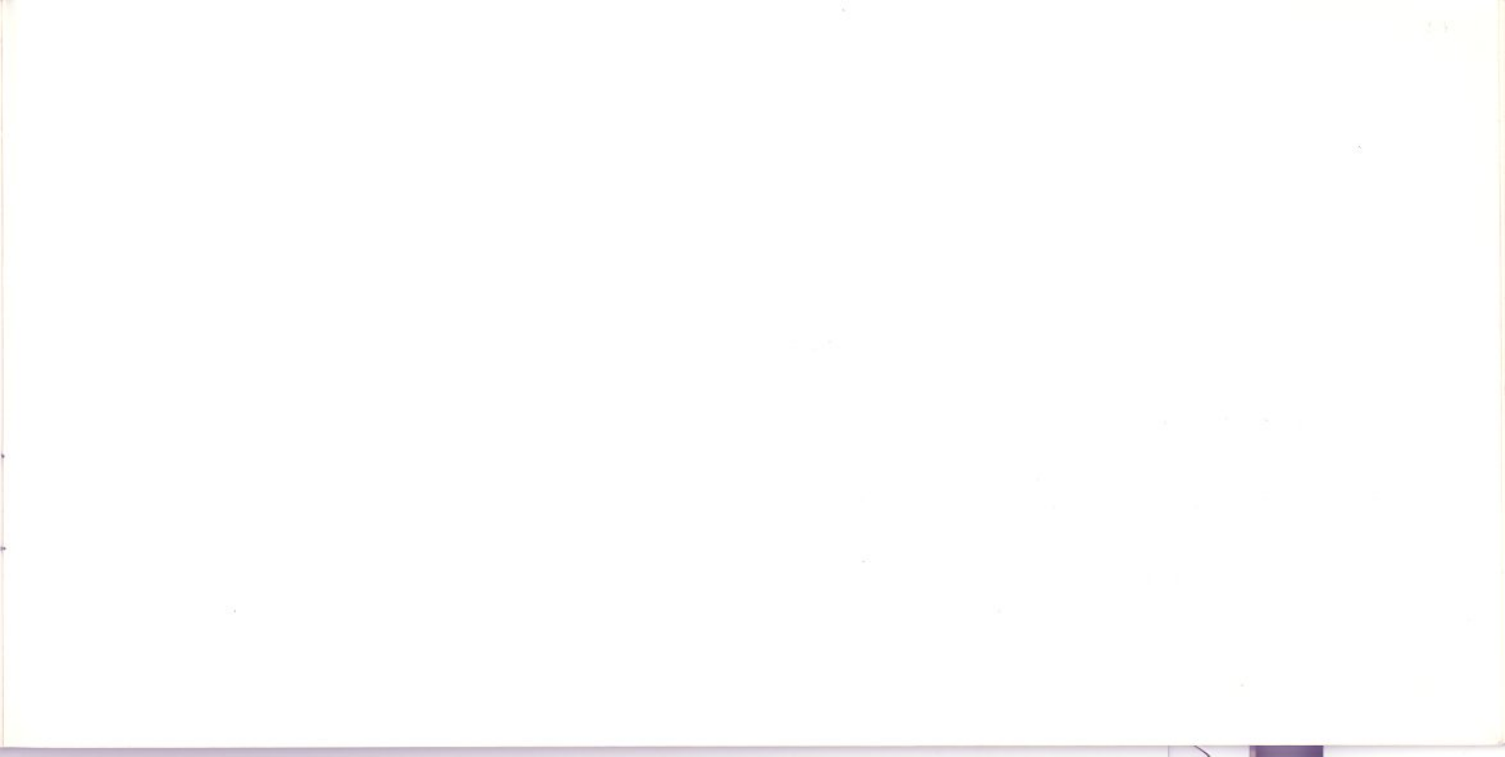

ATF (Automatic Transmission Fluid) changes apply to vehicle equipped with automatic transmission.

Important:

Change ATF every 15,000 miles if vehicle is operated under heavy duty conditions such as trailer towing, high outside temperatures, continuous mountain driving or constant stop and go traffic. If in doubt, consult your authorized Volkswagen dealer.

The boxes to the right indicate a brake service that is required in addition to the preceding maintenance.

Authorized VW Dealers use a unique service system specially developed for the VW.

Lots of service stations say they can repair Volkswagens and a lot of them really can. But they do not offer you VW Electronic Analysis.

VW trained diagnosticians and technicians will check your VW using special test equipment.

The results of the diagnosis will be recorded on a test report so that you know the exact condition of your VW.

It tells you a lot about the car you drive.

B5-308

Customer Assistance

There are more than 1500 authorized Volkswagen dealers in North and Central America. Their addresses and telephone numbers are listed in a booklet which is available at your VW dealer.

Any one of these dealers is well equipped to help you with virtually all VW-related matters, and your dealer should be your primary source.

Should there be an occasion where you need further assistance, you may want to contact the Volkswagen regional office in your area. We have listed their addresses and telephone numbers on the next page.

Should you feel that you need assistance beyond that offered by your dealer, distributor or regional office, you may want to contact

The chassis number

is located on the instrument panel on the driver's side so that it is visible from the outside through the windshield.

The "Canadian Motor Vehicle Safety Act of 1971" requires manufacturers to be in a position to contact vehicle owners if a correction of a product defect becomes necessary.

Please complete one of the attached postcards if you change your address or purchase a used Volkswagen.

Quote the complete chassis number of your Volkswagen. Do not use an abbreviated number.

Additional cards can be obtained from any authorized Volkswagen dealer.
